# naxoflex SRA100

Naxoflex's safety knives are able to cut all soft and hard materials. Produces fantastic results with both right and left hand.

Once you have finished using the knife, the blade will immediately return inside even if you have not stopped holding the safety button.

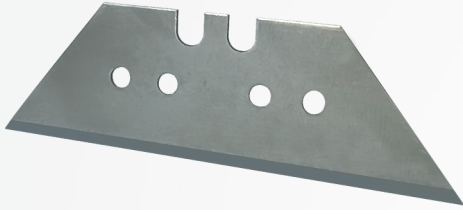

You can easily replace the blade with few moves. Firstly slide the safety button which is located at the top of the handle below the blade upwards and push the slide forward, the old blade will come out. Then, place the new blade so that it sits perfectly in the space where the previous blade used to be, please note that the space for the blade is a green colour. Finally, move the slide downwards to close the safety button. The knife is now ready for use.

## Product Information

Model No	: SRA100
Measurements (L x W x H)	: 149 X 18 X 45 mm
Cutting depth	: 20 mm
Weight product	: 60 gr
Basic material	: Glass fibre reinforced plastic
Packaging unit	: 1 in single unit box (40 knives in multipack)

#### Product Information

Model No	: UCK60
Measurements (L x W)	: 60 X 18,9 mm
Material thickness	: 0,6 mm
Basic material	: Steel deep-edged
Packaging unit	: 10 in single unit box (100 knives in multipack)

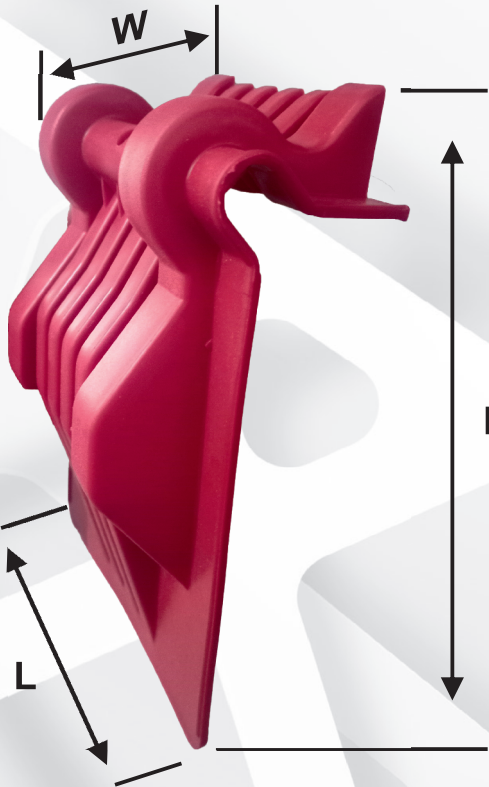

#### Packing Information

Model No	: SRA100
Measurements (L x W x H)	: 140 X 20 X 200 mm
Basic material	: Blister-PVC packaging
Package contents	: 1 pc SRA100 utility knife 1+2 UCK60 Blade

# Corner Protector

## Product Information

Model No	: RPC80
Measurements (L x W x H)	: 145 X 75 X 207 mm
	: 145 X 157 X 207 mm
Basic material	: Plastic
Colors	: Red-Black-Gray-Yellow

### Product Information

Model No	: RKB08
Size	: One Size
Style	: Safety
Item weight	: 165 gr.
Basic material	: ABS plastic + cotton
Hat cress	: 3-5-8 cm
